

Northern New Jersey Council Geofencing is back!

Geofencing is a service that triggers an action when a device enters a set location within a certain radius. It is a creative way to make use of these virtual boundaries to aid you in marketing your unit's event.

We want to Geofence your Troop's Virtual OR In Person Meeting so you can have a Great Recruiting this year!

Pick your design for your Geofence:

Option 1

Option 2

Option 3

Option 4

INSTRUCTIONS ON HOW TO GEOFENCE YOUR UNIT:

To Take Advantage of this Geofencing Option offered to your Unit, **please email your District Executive** the following: whether your event is In Person or Virtual. If Virtual, please include URL link and if there is a password along with any other instructions to join. Also, send the Location and FULL address to fence your event, date, start time, end time, Fencing Radius, Main Contact for event (Email OR Phone), Permission to use contact info, which picture option you want used, and any additional fencing addresses to be included.

QUESTIONS: Contact Chris.Clark@scouting.org OR Curtis.Miller@scouting.org
